

Interim Polling District and Places Review 2022

Background

Within each Local Authority area, legislation requires Councils to carry out reviews of Polling Districts and Polling Places in that area.

Stockton on Tees Borough Council is conducting an interim review of polling districts and polling places in accordance with the Electoral Registration and Administration Act 2013.

Polling districts and polling places are being reviewed as a result of changes to ward boundaries following an electoral review by the Local Government Boundary Commission for England. The (Acting) Returning Officer for Stockton on Tees will comment on the current arrangements and those comments will be made available on the Council's website and at the Municipal Buildings, Church Road, Stockton.

A Council's area is divided into polling districts with one or more districts making up a ward, with a polling place being the area or building within a polling district in which a polling station is situated. Consequently, it is inevitable that polling stations are also considered as part of these reviews.

In line with the guidance issued by the Electoral Commission the review has considered:

- The boundaries of polling districts – for example, are they well defined? Do they follow natural boundaries? Are there suitable transport links? Are there any obstacles to crossing polling district boundaries?
- Polling Places – the location, size and accessibility of the polling place and its availability now and in the future
- Polling Stations – the suitability and accessibility of the room or area for use as a polling station

The following tables summarises the revised arrangements. Polling districts have needed to be drawn to reflect the needs of both existing and future ward boundaries. This has been achieved by establishing temporary polling districts for the period 1 December 2022 to 1 December 2023 which will then be merged into appropriate adjoining polling districts on publication of the Revised Register on 1 December 2023. The following table is structured around the new wards but references existing polling districts to illustrate the changes.

A further polling district review may need to be conducted in the summer 2023 to take account of any changes to parliamentary constituencies.

Mobile polling stations continue to be used where no alternative venues can be found. Any suggestions for alternative venues to avoid the need to use mobile stations would be welcomed.

The proposals take into account Electoral Commission Guidance that the number of electors allocated to a particular polling station should not exceed 2,500.

It is usual for the Polling Place to be within the Polling District however the (Acting) Returning Officer reserves the right to designate a Polling place within an adjoining Polling District should circumstances dictate.

Maps illustrating the changes to polling districts can be found on the Council's website at <https://www.stockton.gov.uk/boundary-reviews>
